

2010 SUMMER SCHEDULE

Wonderment CAMP

BACK BY POPULAR DEMAND – Camp Wonderment! These three day sessions are designed to fire the imagination of older children and allow us to create exciting projects, while developing mental agility and physical proficiency. This year we're extending our camp sessions into a third month so now you have choices in June, as well as July and August. We hope you'll find one or more activities that interest your child – join us this summer!

Coming in June

WOODWORKING 101

During this three day intensive camp, children will explore the joys of wood-working with hand tools. Your child will learn to use basic tools safely and have time to choose from and complete a variety of projects. Possibilities include swords, shields, and daggers, walking sticks, backyard swings, slingshots, boats, and stilts. Your child may choose from these possibilities but will also be encouraged to create a project of their own design. Participants may complete many projects during our week or devote themselves to one very special project. Children will also have the opportunity to personalize their creations with wood burning, paint, leather and objects from nature. *Please send children in comfortable work clothes with a bag lunch, water bottle and sunscreen.*
